

APPLICATION FOR PERMIT
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Serial No. 8878

Date of first receipt and filing in State Engineer's office APR 23 1929
Returned to applicant for correction _____
Corrected application filed _____

The undersigned George G. Hussman
Name of applicant
of Gardnerville, County of Douglas,
State of Nevada, hereby make S application for
permission to appropriate the public waters of the State of Nevada, as
hereinafter stated. (If applicant is a corporation, give date and place
of incorporation.) _____

1. The source of the proposed appropriation is East Carson River
Name of stream, lake, or other source
2. The amount of water applied for is 400 acre feet per ^{annum} ~~second-foot~~
One second-foot equals 40 miners' inches
3. The water to be used for Irrigation purposes
Irrigation, power, mining, manufacturing, domestic, or other use
4. The water is to be diverted from its source at the following point:
This is an application to change the manner and place of use
Describe as being within a 40-acre subdivision of public survey, or by course and distance to a section corner. If on unsurveyed land, it should be so stated.
of water heretofore granted under 2844.
(See supplemental sheet)

IF THE WATER IS TO BE USED FOR IRRIGATION, SUPPLY THE FOLLOWING INFORMATION:

- (a) Number of acres to be irrigated is _____
- (b) Description of land to be irrigated _____
Describe by legal subdivision, or if on unsurveyed land it should be so stated and a description provided in accordance with special instruction from the State Engineer when application is returned for correction.
- (c) Use will begin about _____ and end about _____, of each year.
Month Month

IF WATER IS TO BE USED FOR POWER, MINING, STOCK WATERING, OR OTHER USE, SUPPLY THE FOLLOWING INFORMATION:

- (d) Power to be developed is _____ horsepower.
- (e) Works to be located _____
Give 40-acre subdivision on which works will be located, or locate by course and distance to a section corner.
- (f) Point of return of water to stream _____
Describe in same manner as point of diversion.
- (g) State number and kinds of animals to be watered _____
- (h) Use will begin about _____ and end about _____, of each year.
Month Month
- (i) Remarks _____

DESCRIPTION OF PROPOSED WORKS

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water

is to be stored in reservoirs, it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions.

5. Estimated cost of works

6. Estimated time required to construct works

7. Remarks

For use of Applicant

for LAND OWNERS OF CARSON STATE ENGINEER MEXICAN DAM & DITCH CO-20070

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed cubic feet per second.

Actual construction work shall begin on or before

Proof of commencement of work shall be filed before

Work must be prosecuted with reasonable diligence and be completed on or before

Proof of completion of work shall be filed before

Application of water to beneficial use shall be made on or before

. Proof of the application of water to beneficial use must be filed with State Engineer on or before

WITNESS MY HAND AND SEAL this day of

State Engineer.

IN THE OFFICE OF THE STATE ENGINEER OF
THE STATE OF NEVADA

APPLICATION FOR PERMISSION TO :
CHANGE THE PLACE AND MANNER OF :
USE OF WATER FROM THE EAST CARSON :
RIVER UNDER PERMIT No. 2844 :

SERIAL NO. 8878

-----:
Date of first receipt and filing in State Engineer's Office APR 23 1929

Returned to applicant for correction _____
Corrected application filed _____

The undersigned, George G. Hussman, of Gardnerville, Douglas County, Nevada, hereby makes application to change the place and manner of use of waters heretofore appropriated and beneficially used under Permit No 2844 as hereinafter shown.

1. The source of water supply proposed to be changed is the East Carson River.

2. The quantity of water heretofore granted and beneficially used under Permit No. 2844 is 100 cubic feet per second, which amounts to 72270 acre feet per annum, about 400 acre feet per annum of which has been stored above the dam of the Douglas Milling and Power Co. and beneficially used for power purposes under said Permit No. 2844, which amount of stored water was necessary to the economical and beneficial use of said water under said Permit No. 2844, for the purposes for which same was granted.

3. The quantity of water, desired to be changed under this application is that which has been conserved above the said dam of the Douglas Milling and Power Co., amounting to approximately 400 acre feet per annum, as above set forth; and it is desired, under this said application to use said conserved water for irrigation and domestic purposes, as hereinafter shown.

4. The place of use of the water heretofore granted and beneficially used under Permit No. 2844 was at the power house of the Douglas Milling and Power Co. in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 25, T. 12 N. R. 20 E.

5.- The place of use of the water desired to be changed under this application will be as above set forth for irrigation and domestic purposes on the following described lands:

Portions of NW $\frac{1}{4}$ of Sec. 10; E $\frac{1}{2}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$, Sec. 4; NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 9; SW $\frac{1}{4}$, Sec. 3, all T. 12 N., R. 20 E being 425 acres, more or less.

6. The point of diversion of the said water sought to be changed under and by virtue of this application will remain the same as set forth in Permit No. 2844, to-wit:-

At the Douglas Milling and Power Co. dam in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 25, T. 12 N. R. 20 E.

7. Description of Works:- Storage works constructed and beneficially used under and by virtue of Permit No. 2844 will be maintained under this application; which said works are as follows, to-wit:

A concrete dam about 200 ft. in length and 40 ft. in height, creating a reservoir of approximately 400 acre feet capacity and covering portions of the SW $\frac{1}{4}$ Sec. 25 and NW $\frac{1}{4}$ Sec. 36, T. 12 N. R. 20 E. Water which has thus been conserved under and by virtue of Permit No. 2844 and which it is proposed to continue to conserve under and by means of this application, will be turned down the East Carson River, when needed, and diverted into

ditches of applicant, which have already been constructed and in use for a great many years, and said conserved water will be used for irrigation and domestic purposes on lands of applicant which already hold prior and valid water rights, when shortage of water in the East Carson River, will not permit of the irrigation of said lands by direct flow from the said East Carson River.

8.- Irrigation period begins about Mar. 1. and ends about Nov. 1 of each year, but it is only proposed, in connection with the changes desired under and by virtue of this application, to use water in accordance with the statements set forth under the heading "Remarks" below.

9.- Remarks:- Applicant has purchased the Douglas Milling and Power Co. dam and diversion works from the Sierra Pacific Power Co. which said company in turn purchased, under date of June 28, 1928, all rights of the Douglas Milling and Power Co. The sole and only purpose of this application is to change the right in and to the flood and excess waters of the East Carson River which have heretofore been conserved by means of the Douglas Milling and Power Co. dam, and utilize the same during the summer months at times when the natural direct flow of water from said East Carson River is not sufficient to fully satisfy all the priority rights of applicant, but it is not proposed under and by virtue of the rights sought to be acquired in connection with the change desired to be made hereunder to in any way interfere with valid prior existing rights on said stream.

George G. Hussman Applicant
